Profile

I have a strong interest in film, animation, drawing and visual storytelling. I enjoy exploring how movement, framing, timing and character design shape emotion on screen. Through short video projects, sketchbook work and independent animation tests.

I am planning to progress into animation / film education and am applying for this Junior Clean Up Artist placement to gain practical production experience in clean-up animation, line quality, character consistency and working to a studio brief. My portfolio includes short animation tests, sketchbook studies, live-action camera pieces, photography and storyboarding exercises at www.joshmoriartyfilms.ie.
